

# Key Instant Recall Facts

### Year 1 – Summer 1

### I can add 10 to a number.

By the end of this half term, children should know that when you add ten to a number, only the tens digit changes. The aim is for them to answer these kind of questions **instantly**.

Children should be able to see that only the tens digit changes when adding ten to a number. 2 + 10 = 12 5 + 10 = 15 10 + 10 = 20 16 + 10 = 26 23 + 10 = 33 31 + 10 = 41 37 + 10 = 47 45 + 10 = 5557 + 10 = 67

They should be able to answer these questions including missing number questions,

e.g. 2 + () = 12 or () + 10 = 53.

#### <u>Top Tips</u>

The secret to success is practising **little** and **often**. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day.

Make a counting in tens or fives poster – Can they count forwards and backwards in these patterns?

https://www.youtube.com/watch?v=9NRdxc0XjOg - 10 more and 10 less

Year 1 – Summer 2

## I know doubles and halves of numbers to 10.

### I know near doubles to 5.

By the end of this half term, children should know the following facts. The aim is for them to recall these facts **instantly**.

<u>Doubles</u>	<u>Halves</u>	<u>Near doubles</u>
Double 1 is 2	Half of 20 is 10	If 1 + 1 = 2, then 1 + 2 = 3 because it's 1 more.
Double 2 is 4	Half of 18 is 9	
3 + 3 = 6	Half of 16 is 8	If 2 + 2 = 4, then 2 + 3 = 5 because it's 1 more.
Double 4 is 8	Half of 14 = 7	
5 + 5 = 10	Half of 12 = 6	If 3 +3 = 6, then 3 + 4 = 7 because it's 1 more.
6 + 6 = 12	½ of 10 = 5	
Double 7 is 14	1/2 of 8 is 4	If 4 + 4 = 8, then 4 + 5 = 9 because it's 1 more.
Double 8 is 16	Half of 6 is 3	
Double 9 is 18	Half of 4 = 2	If 5 + 5 = 10, then 5 + 6 = 11 because it's 1 more.
10 + 10 = 20	Half of 2 is 1	

They should be able to answer these questions in any order, including missing number questions,

e.g. double  $\bigcirc$  = 10 or half of  $\bigcirc$  = 3.

#### <u>Top Tips</u>

The secret to success is practising **little** and **often**. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day.

Songs and Chants – The children should know a chant for doubles to ten or there are chants online.
