

Key Instant Recall Facts

Year 6 – Summer 1

I can tell the time, using analogue clocks and calculate the duration between given times.

By the end of this half term, children should know the following facts. The aim is for them to recall these facts instantly.

<p>Children need to be able to tell the time using a clock with hands. This target can be broken down into several steps.</p> <ul style="list-style-type: none">• I can tell the time to the nearest hour• I can tell the time to the nearest half hour• I can tell the time to the nearest quarter hour• I can tell the time to the nearest five minutes• I can tell the time to the nearest minute <p>Children need to be able to convert between 12 and 24-hour times.</p> <p>They should also be able to calculate the duration between two given times e.g. A film starts at 2.15 and lasts for 1 hour 23 minutes. When will it end?</p>	<p>Key Vocabulary</p> <p>O'clock</p> <p>Quarter past, quarter to</p> <p>Past/ to</p> <p>How long is it between _____ and _____?</p>
---	--

Top Tips

The secret to success is practising **little** and **often**. Use time wisely. If you would like more ideas, please speak to your child's teacher.

Talk about time: Discuss what time things happen. When does your child wake up?

What time do they eat breakfast? Make sure that you have an analogue clock visible in your house or that your child wears a watch with hands. Once your child is confident telling the time, see if you can find more challenging clocks e.g. with Roman numerals or no numbers marked.

Ask your child the time regularly: You could also give your child some responsibility for watching the clock:

"The cakes need to come out of the oven at twenty-two minutes past four exactly."

"We need to leave the house at twenty-five to nine."

Key Instant Recall Facts

Year 6 – Summer 1

Time

60 seconds = 1 minute

60 minutes = 1 hour

24 hours = 1 day

7 days = 1 week

365 days = 1 year

52 weeks = 1 year

10 years = 1 decade

100 years = 1 century

1000 years = 1 millennium

Analogue Time a.m. and p.m.

Digital Time a.m.
