

The Deca-anemone

You and your group are going to join the marine biologists in studying this amazing creature.

The deca-anemone has ten main columns.

On each column there are ten branches.

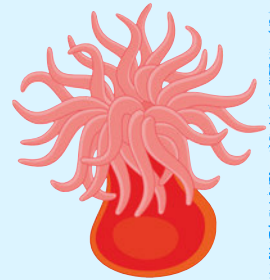

On each branch there are ten tentacles.

On each tentacle there are ten buds.

With your group, find out how many buds are on the entire creature.

To help you, you could:

- Draw a picture of the deca-anemone and each of its parts.
- Create a table of information.
- Use objects to make a model of a part of the deca-anemone.

Good luck!

You and your group are going to join the marine biologists in studying this amazing creature.

The deca-anemone has ten main columns.

On each column there are ten branches.

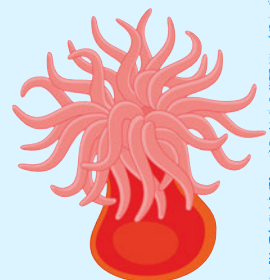

On each branch there are ten tentacles.

On each tentacle there are ten buds.

With your group, find out how many buds are on the entire creature.

To help you, you could:

- Draw a picture of the deca-anemone and each of its parts.
- Create a table of information.
- Use objects to make a model of a part of the deca-anemone.

Good luck!

- Take it in turns to roll either one or two dice and add up the numbers you have rolled.
- Then multiply the number by 10 or 100 and cover the answer using your coloured counters.
- The first to get four counters in a row wins!
