PYRAMIDS were built thousands of years ago in Egypt. The Great Pyramids at Giza are the oldest and largest pyramids in the world. They were built as tombs for Pharaohs (kings) and their queens. The pyramids were built by many workers who had to move millions of stones. The pyramids are still standing today because they were built very well. The Great Pyramids are located in Egypt. The pyramids are very tall and have a flat top. They are made of stone and are very heavy. The pyramids are very old and have been around for thousands of years.
