

Snowman Toilet Roll Tube Craft

You will need:

- 1 toilet roll tube
- White paint
- A pipecleaner
- Two pom poms
- Felt or colourful paper
- Colourful pens
- Glue and sticky tape

1) First, paint your toilet roll tube using white paint. This may take a few coats depending on type of paint you use. Then leave to dry.

2) Once the paint is dry, attach two small pom poms at opposite sides of the top of your toilet roll tube. These will be ear muffs.

3) Take the pipecleaner and place it inside the tube, with one of the pom poms on the outside of the cardboard tube. Secure with sticky tape.

4) Thread the rest of the pipecleaner into the tube so it creates a loop like the band on a pair of ear muffs. Adjust the height of the band until you are happy. When it is in the right position, add sticky tape to secure.

Snowman Toilet Roll Tube Craft

5) Cut off any excess pipecleaner hanging out of the end of the tube.

6) Now use a black pen or marker to add the eyes and mouth of your snowman.

7) Then use a colourful pen to add a carrot nose.

8) Next, we will add the snowman's scarf. Take a piece of felt or paper. It should be about 3cm wide and 13cm long. Holding one end at the back of the snowman, wrap the scarf around the toilet roll tube.

9) Secure with glue and cut off any excess felt or paper.

10) Then add an extra piece of felt or paper at the front of the snowman, hanging downwards from the scarf. Cut the piece of felt or paper to an appropriate size.

11) Last of all, use your pens to add buttons to your snowman. You have made a lovely, recycled Christmas snowman decoration.
